

Update Your Specifications with Cable You Can Trust

Our entire line of cable products is designed to better enable the daily success of Architects and Engineers (A&Es), Security Designers, and Consultants. Giving you the confidence to specify cable for specific applications—and supporting you every step of the way—we provide optimal connectivity to integrated video surveillance, access control, intrusion, fire alarm, and intelligent building systems. Backed by a Fortune 100 company that sets the standard across numerous industries, Honeywell Cable delivers high-performance products, hassle-free installation, robust warranties, and everything you need to succeed.

Persistently Dedicated to Quality

Committed to providing a standard of quality that's second to none, we maintain state-of-the-art facilities that consistently measure up to our rigorous inspection and evaluation protocol.

Made in the USA – Our facility in Pleasant Prairie, Wisconsin, uses advanced manufacturing and quality control processes to produce cables engineered to meet a host of electrical and mechanical requirements for signal communications and low-power systems.

Trusted Partners – We carefully evaluate our global suppliers and inspect all shipments to ensure they adhere to our specifications and that our quality standards are always upheld.

Where and When You Need It

Thousands of locations across the security, low-voltage, electrical, and HVAC distribution channels where our Honeywell Genesis® Series cable is readily available for quick delivery or pick up.

Robust, Industry-Leading Warranties

Backing up our commitment to quality, we have gone to great lengths to offer standard or extended agreements on our entire range of innovative products.

CABLE WARRANTY
PROTECTION PROGRAM

3-for-1 Standard Warranty – Our 36-month limited warranty is the most comprehensive in the industry. If any Honeywell Cable product fails to perform to specification, we will replace it – three units to one!

SureLYNKSM System Warranty – Provides coverage for labor and materials to the original end-user or any Ethernet network comprised of Honeywell Genesis® Series category cable with connectivity hardware from approved manufacturers.

Elite Connectivity Partner Warranties – Honeywell Cable partners with select connectivity manufacturers to offer complete 25-year warranty coverage of structured networking system components.
